Summary

A driven and analytical data professional with 1 year of experience in data analysis and insights generation. Proficient in utilizing data visualization tools, such as Tableau, to generate actionable insights for stakeholders. Successfully managed multiple projects at IFF, utilizing advanced Excel techniques and statistical analysis to deliver insights and drive data-driven decision-making. Seeking a challenging role as a data analyst where I can utilize my skills and experience to drive business growth and success. Fluent in English and Polish, with an intermediate understanding of German.

Experience

Data Analyst

IFF

Feb 2022 - Jan 2023 (1 year)

· Performing quantitative and qualitative analysis to support data-driven projects
· Maintaining and cleaning up master data for optimal data analysis using Excel and SQL
· Coordinating, supporting, and helping the project team to resolve issues with master data, reporting, and commercial systems integration
· Analyzing master data in SAP, SFDC (Salesforce), and other enterprise systems to identify opportunities for procedure alignment, data harmonization, and process improvements
· Working with the master data team to recommend enhancements to existing procedures, incorporating user feedback to address information gaps
· Assisting in the development, improvement and documentation of master data governance framework with a focus on improving data quality for data-driven business analytics

Digital Marketing Intern

40Love.ai

Jul 2019 - Dec 2019 (6 months)

· Creating and keeping customers through social media marketing, SEO, content marketing, and paid advertising
· In charge of ad campaigns on Facebook Ads and Google Ads
· Extensively used Google Analytics to find a target audience and analyze insights from website traffic
· Helped with generating sales via direct messaging
